

**We believe that in order to
make an impact,
you've got to be a little
different.**

Working with Artist Home isn't just another opportunity to put your logo on a poster or your banner on a stage. It's an opportunity to connect with a cross section of Northwest tastemakers in meaningful ways.

We hear from artists, attendees and partners that our events just feel different. We believe that by carefully creating events that pull attendees out of themselves and into a shared experience, we build something very special — an environment where art and community are celebrated.

We proudly represent some of the Northwest's most iconic and important cultural events. We can't wait to work with you to find the best way to incorporate your brand into our next event to create one-of-a-kind experiences.

Artist Home is a company of culture makers, community builders, and event producers who have served the Pacific Northwest for 10 years. Since its inception, Artist Home has become a prominent part of the Northwest music community by creating one-of-a-kind festival experiences and serving as a loyal and positive platform of support for artists. Artist Home is a respected curatorial authority in the Northwest and beyond.

"Artist Home is a well-run production company. Not only has it successfully created and run a variety of different festivals, but the people that run it are some of the fairest, most decent people in the business. I can't recommend them enough - as a professional production company and as great people to work with."

DON YATES | MUSIC DIRECTOR KEXP

"Over the last half decade I have watched in awe as Artist Home has built a strong and passionate music community that is uniquely Pacific Northwestern, bringing artists and audiences together to commune with each other and the nature that surrounds us. I have watched artists, both regional and national, find their voice through its programming, and have seen music lovers in search of a community find a home in its events. I don't know what this city would sound like without their efforts. And I don't want to know."

MARK BAUMGARTEN | EDITOR-IN-CHIEF SEATTLE WEEKLY

"Artist home have created extraordinary, one-of-a-kind music festivals that artists and audiences love with equal passion. Their events have embraced the communities where they have been located to forge significant and meaningful partnerships. They have also been adept at producing these events in non-traditional venues to make something special that cannot be replicated elsewhere. It has been a pleasure to work with them and also attend the events they create."
